PROJECTS

American Sign Language Detection System

[GitHub](#)

- Developed an American Sign Language (ASL) detection system using Python and a Random Forest Classifier, achieving accurate gesture recognition for ASL signs.
- Employed OpenCV for real-time image processing, MediaPipe for precise hand tracking, Pickle to serialize the trained model, enabling quick and efficient deployment for real-time gesture predictions.

Smart Door Lock - Face Recognition System

[GitHub](#)

- Developed a smart door lock system using facial recognition, utilizing Python, OpenCV for facial data processing, and trained the model with an LBPH classifier.
- Designed a Tinkercad simulation to demonstrate the real-world integration of the facial recognition system with Arduino.

SKILLS

Technical Skills: C, C++, Python, SQL, HTML, CSS, Canva.

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Computer Networks, Database Management Systems.

Soft Skills: Effective Communication, Problem-Solving, Teamwork, Time Management

WORK EXPERIENCE

Celebal Technologies (Certificate)

June 2024 – August 2024

Data Science Intern

Remote

- Gained hands-on experience with Python, and comprehensive data science techniques including data preprocessing, feature engineering, and model deployment.
- Completed a project on "house price prediction", along with weekly assignments, enhancing data analysis skills.

Steel Authority of India Limited - SAIL (Certificate)

May 2023 – June 2023

Summer Intern

Ranchi

- Acquired training and gained extensive knowledge in the C&IT department.
- Learned about "Asset Management System" using XAMPP, SQL, and HTML, optimizing asset tracking and management processes.

EXTRACURRICULAR ACTIVITIES
